U.S. Human Spaceflight: Past, Present, and Future

In 1961, NASA put the first American in space. Since then, U.S. astronauts have walked on the moon, piloted the Space Shuttle, and lived aboard the International Space Station. Join UC Davis professor and former NASA Astronaut Dr. Stephen Robinson as he explores the history of manned spaceflight, the challenges facing space exploration today, and what’s on the horizon for the future.

Astronaut Stephen Robinson, a veteran of four space shuttle missions, is a professor in the UC Davis College of Engineering’s Department of Mechanical and Aerospace Engineering. Robinson currently leads the UC Davis Center for Human/Robotics/Vehicle Integration and Performance (HRVIP Lab).

TERC SPRING LECTURE

May 23

5:30 – 7:30 p.m.

UC Davis Tahoe Science Center
291 Country Club Dr.,
Incline Village, Nevada

$5 paid in advance; $10 at the door.
Refreshments and no-host bar 5:30 p.m.,
presentation begins at 6 p.m.

Please register for your seat at
http://tahoe.ucdavis.edu/events/

The Tahoe Environmental Research Center (TERC) is a global research leader providing the science for restoring and sustaining Lake Tahoe and other treasured lakes worldwide. TERC educates the next generation of leaders and inspires environmental stewardship.
