TERC is proud of its contributions toward making UC Davis sixth among the top public universities in the [U.S. News & World Report Rankings](#), and eighth among the Princeton Review's [Top 20 Best Schools for Making an Impact](#).

Since 1968 UC Davis has been conducting research continuously at Lake Tahoe, helping to advance the science needed to restore the lake, developing tools to manage the lake, and training new generations of scientists. Through our education centers in Incline Village, NV and Tahoe City, CA, we are sharing all that we do with the public.

Thank you for your continued support!

UC Davis Rises to 6th Among Nation's Top Public Universities

UC Davis, rose to tie for sixth place among the nation's top public universities in rankings published today (Sept. 17) by U.S. News & World Report.
