

# Dandelions: Weeds or Feed?

No matter how much time and effort is spent in the removal of these pesky plants, they persist and always return in seemingly larger numbers. When life hands you lemons, you make lemonade. In this case your garden gives you dandelions so use all parts of the dandelion for foods, drinks, and medicinal purposes. Discover the dandelion's benefits and uses as well as how to harvest them. Bring some small containers or bags so you can bring home dandelions and all their edible parts!

**Alternative Evening Session:**

**Where: Truckee Demonstration Garden**  
**located in the Truckee Regional Park**  
**When: August 17, 2016**  
**Time: 5:30 p.m.**

The Tahoe Environmental Research Center (TERC) is a global research leader providing the science for restoring and sustaining Lake Tahoe and other treasured lakes worldwide. TERC educates the next generation of leaders and inspires environmental stewardship.

The Tahoe City Demonstration Garden and historic hatchery building is open 7 days a week, 8am-6pm from Memorial Day through Labor Day for self-guided tours (Saturdays, 10am-2pm) for docent-led tours). This 3-acre garden focuses on encouraging native plant gardening and utilizing citizen science to monitor a plant's response to changes in climate.
