

Tahoe Plant Workshops

The UC Davis Tahoe Environmental Research Center (TERC) gardening series will focus on Tahoe's native herbal and edible plants. Join TERC educators and discover the many benefits of gardening with Tahoe's native flora. This series cover plants used for teas, homeopathic remedies, and weeds that have surprising uses. All workshops are free of cost and will occur over three consecutive Saturdays: July 30, August 6, and August 13. Come prepared with bags or containers to take home plants and more. Early registration is not required but recommended.

The Tahoe Environmental Research Center (TERC) is a global research leader providing the science for restoring and sustaining Lake Tahoe and other treasured lakes worldwide. TERC educates the next generation of leaders and inspires environmental stewardship.

The Tahoe City Demonstration Garden and historic hatchery building is open 7 days a week, 8am-6pm from Memorial Day through Labor Day for self-guided tours (Saturdays, 10am-2pm) for docent-led tours). This 3-acre garden focuses on encouraging native plant gardening and utilizing citizen science to monitor a plant's response to changes in climate.
